ABOUT ME

Professional with extensive experience in software development and team management, specializing in the application of DevOps practices.

I excel in implementing scalable and efficient solutions using agile methodologies, continuous integration (CI/CD), and microservices-based architectures.

I am an expert in technologies such as PHP, Java, TypeScript, RabbitMQ, and GitLab CI, as well as in the administration of Linux and Windows environments.

WORK EXPERIENCE

SOFTWARE ENGINEER AND TECHNICAL LEAD

2022

Recalvi Parts, S.L., Vigo

- I meet with clients and stakeholders to gather, analyze, and define technical and functional requirements, translating their business needs into clear technical specifications for the development team.
- I prepare technical and functional documentation to ensure alignment between business and development teams, and define acceptance criteria and use cases to validate delivered solutions.
- I design scalable and efficient architectures based on client requirements using microservices-based architectures to enhance software scalability and resilience.
- I evaluate technical feasibility and propose innovative and optimized solutions.
- I lead and coordinate a team of developers to ensure the efficient delivery of technological solutions.
- I oversee the implementation of CI/CD pipelines to optimize the development and deployment lifecycle, as well as manage projects for DevOps process automation and on-premise infrastructure management.
- I generate measurable results that drive team efficiency.

SOFTWARE ENGINEER

2016
2021

Movelco Mobility SL, Vigo

- Design, development, and management of web systems and RESTful services.
- Migration of ERP systems to cloud-based solutions.
- Implementation of microservices architectures using RabbitMQ and CI/CD with GitLab.
- Administration of Linux and Windows servers to ensure the operability of development and production environments.

DEVELOPER AND DESIGNER

2013
2016

Freelance

- Creation and maintenance of custom websites for small and medium-sized businesses.
